Introduction

This section provides all the record layouts needed for you to create your own software to participate in the Electronic Data Exchange (EDE) process.

Record Layout Changes for 2006-2007

There were no start or end position or field length changes to any of the fields on the record layouts for the 2006-2007 award year. However, some of the valid content has changed. View the Changes column in each layout for the specific changes.

The Data Release Number (DRN) field on the 2005-2006 ISIR Record Layout, field 137, has changed to filler for the 2006-2007 year. The DRN will function as it has in the past and the student will have the same access to the DRN, however it will not be included in the ISIR file.

We anticipate major changes to the record layouts for the 2007-2008 award year.

Request Title in ISIR Files

To identify the group of ISIRs belonging to your datamart requests, a request title for each query is returned in the resulting ISIR file sent to your school. The title appears as the first detail line in the ISIR file after the SAIG header record. The title will be in positions 1 to 50. Positions 51 to 2600 will be blank.

In addition, to ensure that the ISIR data from CPS for all ISIR records is consistent for your school's software, this request title is part of the daily and pushed ISIR files you receive. For these ISIR files, the first detail line contains all blanks in positions 1 to 2600. Examples are listed below:

ISIRs received as a result of a datamart request

Line 1: O*N05 record (SAIG header record)

Line 2: Request Title (up to 50 bytes of description from the datamart query)

Line 3: First ISIR record meeting request query

Line 4: Second ISIR record meeting request query

Line 5: O*N95 record (SAIG trailer record)

ISIR received because they are your daily ISIRs or pushed ISIRs

Line 1: O*N05 record (SAIG header record)

Line 2: Blank line

Line 3: First ISIR record sent to your school

Line 4: Second ISIR record sent to your school

Line 5: O*N95 record (SAIG trailer record)
